

## Spa Etiquette

Cielo Spa is a place of relaxation and tranquility for our clientele. To help us keep our environment, we offer the following suggestions: Try to arrive 15 minutes prior to your appointment time in order to give you ample time to check in, change clothes and get comfortable. The more calm and relaxed you are, the more beneficial your treatment. A bathrobe, locker and showers will be available for your convenience. Cell phones must be turned off while in the spa. For your sake and in consideration of other clientele, please do not bring children unless they are also scheduled for a service.

Upon your first visit to Cielo Spa, a personal profile is filled out, helping our staff to better understand your needs and customize your services. Please be completely honest with your personal health. \*Clients with a heart condition or high blood pressure should avoid wraps or any treatment involving heat or detoxification. If you have an iodine allergy, avoid marine products such as seaweed. Those with varicose veins should not have a body scrub in those areas. Our pregnant clients should avoid essential oils, detoxification and any heat-related services including body wraps and the steam room.
